

TEMPORARY FOOD EVENT PERMIT PACKET

INSTRUCTIONS TO FOOD VENDORS

BACKGROUND

Temporary food events have been responsible for causing major food borne disease outbreaks due to improper temperature control, poor hygiene practices and inadequate food service facilities. Food preparation at temporary events can pose significant hazards due to limitations of physical facilities and equipment.

It is for the above reasons that comprehensive and close monitoring of temporary food events is required and enforced. The Health Department requires a Temporary Food Permit of any person or organization that is providing food at a public event. All food vendors, including existing restaurants, are required to apply for a Temporary Food Permit when participating in a temporary event.

REQUIREMENTS

Refer to the New Jersey N.J.A.C. 8:24 "Sanitation in Retail Food Establishment and Food and Beverage Vending Machines." All temporary food events require prior approval from the Health Department. In addition, if any cooking is to take place, the event may also require Fire Department approval prior to the event. The use of any tents may require Building Department approval. Contact them directly to determine specific requirements.

Through the use of risk based food inspection, we work with you to reduce the risk of foodborne illness among event participants.

Guidelines were developed to uphold state law and allow vendors to prepare food in a nontraditional food preparation setting. The following points follow New Jersey N.J.A.C. 8:24 "Sanitation in Retail Food Establishment and Food and Beverage Vending Machines." You are responsible for compliance to all Code requirements.
